

Overview

A 5 half-day InfoBatch training course providing information on advanced configuration topics. Training is conducted for 5 consecutive days remotely, from 8am-12pm ET. This course alternates between classroom instruction and hands-on configuration exercises led by experienced software engineers.

Students are guided through various examples and exercises that review Advanced Items, Best Practices and higher-level configuration tasks such as AutoGen triggers.

Training Prerequisites

Students should have a basic knowledge of the following technologies: SQL, XML, HTML, CSS, XSLT & XPath. Trainees will access Informetric's training environment via Remote Desktop. Students are required to have a laptop computer with Remote Desktop Connection enabled. Students will also be required to communicate with the instructors through Microsoft Teams and GoToMeeting.

Recommended

It is strongly recommended that trainees have access to a headset and dual monitors.

Virtual Course!

Interactive hands-on training

Revised content provides orientation for InfoBatch 4.0

Classroom instruction by experienced Informetric software engineers

Structured curriculum with numerous working sessions

Review of InfoBatch Advanced Items

Perform advanced configuration exercises

In-depth review of AutoGen

Students have the opportunity to work on relevant application examples

Interaction with senior Informetric personnel

Topic 1 – InfoBatch Review

Architecture / Applications
 InfoBatch Configurator
 InfoBatch Web Server
 AutoGen
Report Configuration Best Practices Review
 Data
 Data Expressions
 Display Output
Context Data
 Start Source/End Source Filtering
Introduction to SQL

Topic 2 – Advanced Configuration

Advanced Context Items
 Pre-configured Context Item
 Context SQL
 Context SQL Expression
 Context Expression
 Context Exercise - Campaign Reporting
InfoBatch Replace Keys
Advanced Replace Keys Items
 Replace Keys Expression
 Replace Keys SQL
 Replace Keys Exercise - Unit Aliasing
Report History

Topic 3 – Library Management & AutoGen

Library Management
AutoGen
 AutoGen Architecture
 AutoGen Event Detection
 Report AutoGen
 PDF Disposition
PDF Archive
AutoGen Report Utility

Please note: Informetric continually adjusts the agenda based upon attendee feedback. This agenda is subject to change.

InfoBatch Advanced Training

5 half-day InfoBatch Advanced Training course

Two Informetric training instructors

Training environment provided by Informetric

Cost⁽¹⁾⁽²⁾	\$2,400 US
------------------------------	------------

Prerequisites

Each participant is expected to have a laptop computer

Laptop must meet the following requirements:

Windows laptop computer

Remote Desktop Connection enabled

Each trainee will access a training environment via Remote Desktop
